Unit weight	5×10: ~4.4 lb (17.6 lb/bale) · 8×10: 7.5 lb (30 lb/bale)	3×4: ~0.6 lb (~18 lb / 30-ct box)	~0.4–1 lb by type	Vehicle ~8 lb · 20-gal ~25 lb · 55-gal ~50 lb (typical)
Absorbency	Rated 11:1 (ASTM F726-17): ~6.4 gal (24 L)/boom · ~26 gal/bale (5×10); ~11 gal (42 L)/boom · ~44 gal/bale (8×10)	Up to ~1.5 gal/sock · ~45 gal/30-ct box	Up to 1–2 gal/pillow by size	Rated per kit format
Fill & sleeve	100% recycled shredded PP, hydrophobic (oil-only) · spunbond PP scrim, netted	Recycled PP blend · spunbond PP scrim, sewn seams	Recycled PP fill · spunbond PP shell	Green Spill Kits sorbents
In use	Rope, rings & clips both ends. Connect end-to-end with 12" deployed overlap	Conforms around equipment and drains	Form-stable under equipment; net-bag option for retrieval	Full spill clean-up in one package: contain, absorb and dispose of oil, fuel and coolant spills from vehicles, machinery and loading areas. Refills available.
Packaging	25 bales/skid standard (100 booms)	30/box standard · 20–25 boxes/skid	1–40 per case	Per kit format

Also available: oil-only and universal absorbent pads (100/bale, 15"×18"), plus custom lengths to any size, priced per linear foot.

BUILT TO SPEC, FILLED TO SPEC

Our booms are a true 5-inch and 8-inch OD at full stated length, filled evenly to a controlled weight and density. Dimensions, fill weight and absorbency are checked by lot.

TESTED TO STANDARD, PROVEN TO OUTPERFORM

In side-by-side testing to the ASTM F726-17 procedure, Green Spill Kits fill delivered nearly twice the oil absorbency of leading competitor fill, in both medium (canola) and heavy (80W-90 gear) oils. We rate our booms conservatively at 11:1 (oil to sorbent by weight), the low end of our results: about 6.4 US gal (24 L) per 5″×10′ oil-only boom, compared with 6 US gal for a leading competitor's equivalent boom.

VERIFIED RECYCLED CONTENT

Fill is 100% recovered polypropylene by dry weight. Plastic sorbents are an EPA-designated recovered-content item under the Comprehensive Procurement Guidelines (40 CFR 247), which direct U.S. federal purchasers toward recovered-content products, supporting federal supply, Buy Canadian and ESG procurement criteria.

FULFILLMENT & SERVICE

Any order size, from single cases to multiple truckloads, with no minimum on standard SKUs. Order formats: case · pallet · multi-pallet scheduled release · full truckload · private-label program. Reserved surge capacity: incident orders have shipped within 24-hour notice. Bilingual EN/FR labels, SDS and disposal guidance available; product liability insurance in place. Private branding, blind drop-ship and custom pack counts under the Green Spill Kits private-label program.
